About Far Corner

Far Corner is a chamber rock ensemble from Madison. Jazzreview.com says, "Think of modern rock units such as the Belgian outfit "Universe Zero," along with some "King Crimson," style, heavy-handed licks. Overall, the group succeeds at carving out a well-balanced, hybrid mix of classically drenched progressive rock, featuring electric cellos, synths, e-basses, and percussion." Mixing conversation and instruction with both improvised and original music, Far Corner will serve as an inspiration to your students. These four professionally trained musicians are proof that there is life, a career...and music...after earning your first chair in the high school music program.
